PROJECTS

Cookbook | HTML | CSS | Bootstrap | JS | JSX | ReactJS | Node.js
https://github.com/TannerGalloway/Cookbook | https://worldwide-cooking.herokuapp.com
- This app displays various meals from around the world for users to view and get detailed instructions and ingredients about the dish that they selected. If a user is unsure of a recipe they would like, there is a categories tab that helps navigate them to a recipe they would like.
- Responsible for Front-end design of the webpage.

Morning Post | HTML | CSS | Bootstrap | JS | Jquery | Handlebars | Node.js | Express | MySql | Sequelize
https://github.com/TannerGalloway/Morning-Post | https://morningpost.herokuapp.com
- This is a role based News app. You can choose between 2 different roles, one being a generic Vanilla role and the other being an Editor. Vanilla Users are only able to read articles. Editor Users are allowed to create, edit and delete their own articles. The Admin user can see all users logged in to the website and can Ban them or delete their articles if they are misusing the site.
- Responsible for Front-end and Back-end of this Full-Stack application.

Trivia Game | HTML | CSS | JS
https://github.com/TannerGalloway/TriviaGame | https://tannergalloway.github.io/TriviaGame
- This is a trivia game that gives you 10 questions and 30 seconds to choose an answer. You will be told if you are correct or not as well as given the correct answer. When you are finished you are given your score and the ability to restart.
- Responsible for Front-end design and functionality of the webpage.
